

No washing your hair for 72 hours.

If you do get your hair wet/sweaty within 72 hours, blow dry & straighten immediately, or come back in and see us so we can do this for you.

Use paraben & sulphate free shampoo & conditioner for every wash.

We will prescribe the correct products for you.

For best results.

You will need to activate with heat using a hairdryer or GHD straightener.

Leave your hair as it is when you leave the salon for at least 72hrs

No hair ties, tuck behind ears, or do anything that could cause hair to 'Kink or Frizz' for 72 hours.

Smoothing can last up to 4months.

Results may vary depending on the health of your hair & how you care for your hair after the service. Things like how often you wash your hair what products you use, swimming and the general condition of your hair will all affect the longevity.

Colouring Your Hair

Smoothing can cause your hair colour to lighten slightly or change in tone, and there is also a period of time where the process is still completing in your hair. We recommend timing your colour for 1 week after your smoothing service.

Hair must be washed before any colouring service after the keratin treatment. There is an initial coating on the hair which needs to be washed off to enable the colour to absorb into your hair.

Bleaching/Lightening should be done before Guava Smoothing service & refresh toner after service to replace any lost pigment.

Elysium Hair Brisbane 100% guarantees this service providing you invest in and use the products we recommend
