Hair Preparation By You Prior To Your Arrival

For best results your hair should not be washed and conditioned immediately before having your hair styled for a special occasion, as this will affect the style and how long it will last. The time we allocate for your special occasion hair styling does not include washing and drying your hair, if you need to have your hair washed by us for any reason as you have not been able to please contact the salon to arrange extra time to be added to your appointment.

The day before your visit your hair should be washed and conditioned and dried as follows and ideally with specific hair care products, which we recommend.

1. Shampoo your hair twice (L'Oreal Volume Expand Shampoo)
2. Condition your hair – do not use a treatment or masque (L'Oreal Volume Expand Conditioner)
3. Dry your hair straight using a hairdryer and paddle brush
4. Do not use a GHD, straightening or curling iron or rollers
5. Do not use any styling products
6. Do not tie your hair up or put any clips or hair bands in your hair
